

VET MATERIAL FEES

VET Materials Funding Grants

High Cost Material & Low Cost Material Funding Band

In 2023, a two-band VET materials funding model will be implemented (High-cost materials funding band and Low-cost materials funding band). The level of funding received will be based on VET enrolments, and payments will be received as quarterly cash grants through the Student Resource Package.

Each VET enrolment will be allocated \$250 for certificates that sit within the low-cost materials funding band and \$450 for those that sit within the high-cost materials funding band. For further information on VET materials funding visit Vocational Education and Training (VET) Delivered to Secondary Students

Block Credit Hospitality Material Fees
